

DEBS ON THE STAND.

The Strike Leader Before the National Commission.

WHY THE STRIKE WAS DECLARED.

It Was Only Through Sympathy for the Suffering Pullman Workers, After Other Efforts Failed—Government Ownership of Railroads Preferable to Railroad Ownership of Government.

CHICAGO, Aug. 21.—President Eugene V. Debs, of the American Railway union, testified yesterday before the national labor commission. He said, in answer to a question, he was 35 years old, and in addition, he was the head of the American Railway union, was editor of the *Locomotive Fireman's Magazine*.

He testified that from the beginning he was opposed to a strike and so told Vice President Howard. He then continued: "I twice went to G. M. Pullman and to the town of Pullman to thoroughly investigate the conditions existing at the car-hops. I found the employees were not only not getting wages enough to live, but were daily getting deeper into the debt of the Pullman company. No matter how offensive the conditions were there, the men were obliged to submit to them."

"When I found out all these things I immediately determined that the A. R. U. should go to the assistance of these unfortunate people. We believed that any fair board of arbitration would have decided in favor of the employees, and all we asked was arbitration. This the Pullman company arbitrarily refused. Not only this, but when we asked them to examine into the question to see whether or not there was anything to arbitrate, they also refused this."

"Very much has been said about an alleged conspiracy against the railroads and against hauling the mails. I want to call the attention of this commission to the fact that every meeting of the A. R. U. was held with open doors, and that reporters of the press were allowed to be present. If there had been any conspiracy contemplated we certainly would have been in the secret about it."

"Not only did the employees of the various railroads strike because of the injustice being done to the Pullman employees, but because the various roads had grievances of their own, which shall proceed in time to show. We used our influence to prevent strikes during the World's fair, as we did not believe it just to the public to inaugurate a strike at such a time. It was all that could be done by the leaders of the labor unions to prevent a strike. In view of the men's working throughout the fair, the railway managers on many of the roads promised an increase of wages after the fair was over. Instead of doing this they began immediately after the fair closed to begin a systematic reduction of wages throughout the country."

President Debs said, moreover, no railroad reduced the wages of all its men at the same time, but reduced them by sections. He declared the A. R. U. viewed these reductions with the greatest apprehension. The organization felt that the time had come to act.

The witness enumerated the failures of the old labor organizations to gain redress for the grievances of the employees, and asserted they felt their only hope lay in the A. R. U., to which they finally turned for help.

"I would like to state," said Mr. Debs, "that the railroad companies have never raised wages of any kind, except. Every increase in wages has been wrung from them by organization labor."

"Do you claim," asked Mr. Wright, "that the railroads were responsible for the strike because they insisted on hauling Pullman cars?"

"No, sir. The American Railway union was responsible for it, but under aggravating circumstances. The general managers are united to reduce wages. The employees are united to resist such reductions. In case of a reduction that leads to a strike we think the company responsible."

"What is your opinion as to methods of averting strikes?" asked Commissioner Worthington.

"My own idea, and it is the idea of the American Railway union, is to unify all the railroad men of the country. A power like that, prudently managed, would avert strikes. The railroad managers would recognize the wisdom of treating it fairly and meeting it in a conciliatory spirit."

"Do you believe a strike is justifiable that interferes with public convenience?"

"I believe striking is justifiable, no matter what the result, when it is to resist degradation."

"Do you believe in government ownership of railroads?" asked Mr. Kernan.

"Yes, sir. I believe that government ownership of railroads is decidedly better than railroad ownership of the government."

There was the heartiest of laughter and applause at the epigram, and it was some time before the witness said he believed that the A. R. U. was stronger numerically and in every way than it had ever been."

Debs was followed by P. H. Morrissey, first vice-grand master of the Brotherhood of Railroad trainmen, and E. F. Clarke, grand chief of the Order of Railway Conductors. Both told of hostility between their brotherhoods and the A. R. U.

Hood's Has Wrought Wonders.
"Hood's Sarsaparilla has wrought wonders with me. I have had the grip every spring for three years and last spring it left me with a cough and I could hardly walk. I used two bottles of Hood's Sarsaparilla and was cured. In fact, Hood's Sarsaparilla is our cure all and it is the best blood purifier I know of." William D. Huntley, Mexico, N.Y.

Hood's Pills cure indigestion.

CORRUPTION IN MEMPHIS.

Tennessee's Metropolis Has Been Systematically Robbed for Eight Years.

MEMPHIS, Aug. 21.—The Memphis grand jury has unearthed frauds of gigantic proportions. Through the criminal carelessness and neglect of the county officials the state and county have been defrauded out of nearly \$2,000,000 in revenue during the past eight years.

The grand jury began an investigation a few days ago and discovered that nearly 100 saloons and several other firms, embracing about every branch of business, had not paid a cent in taxes and privileges in eight years. The jury made a partial report to the criminal court, and as a result 750 indictments have been returned against the delinquents. The investigation is continued, and the jury will next turn its attention to the delinquent officers.

Judge L. P. Cooper has announced that he intended to enforce the law to the letter, and every person convicted will be punished. The disclosure has created a sensation. The county has been hard pressed for money for several years to meet necessary expenses and it was only a short time ago that bonds were issued to raise money to repair the court house. Had the officials done their duty the county would have had a large surplus instead of being a borrower.

Mr. Wilson Returns to Washington.
WASHINGTON, Aug. 21.—Chairman Wilson, of the ways and means committee, reached Washington from Long Branch last evening. His early return was connected with rumors that President Cleveland would come to Washington at once, and that some action on the tariff bill would be expected. Mr. Wilson denies these statements, but says that he looks for the president's return on Thursday. Finding so many senators away from the city he does not think that there will be action upon the separate tariff bills this session. Mr. Wilson says his return was mainly because he thought the Tarsney free trade bill would come up, but as so many members have gone home, he does not look for any further legislation.

The Climate Was Against Them.
NEW YORK, Aug. 21.—W. D. Hickok, the captain of the Yale athletic team, arrived from Southampton per steamer *Berlin* yesterday. He stated that there was a little hard luck on the American side on their Oxford contest. The weather was distinctly against them, and in the opinion of the English experts the sons of Eli would have made an entirely different showing in fine weather, as they were not used to the English fog and haze. Hickok added that the reception accorded the Yale team was enthusiastic in the extreme, and the proverbial hospitality of Oxford was in no wise belittled.

Sisters May Teach School.
BREMEN, Pa. Aug. 21.—Judge Barker yesterday handed down a decision in the suit brought by W. T. Kerr, state councillor of the Junior Order United American Mechanics, against the board of directors of the Galitzin school to prevent the employment of Catholic sisters wearing their religious garb as teachers. The judge decides that sisters may be employed as teachers, that they may be attired in the garb of their order and that they may be addressed by pupils by their religious names, but refuses to allow the Catholic catechism taught. The costs were divided.

Chicago's Model Officer Dismissed.
CHICAGO, Aug. 21.—Officer Thomas Birmingham, who posed as a model for the Haymarket statue, was dismissed from the police force yesterday for neglect of duty. When he was chosen from 500 comrades there was probably no better built man in Chicago. During the last three years, however, he has more than once been charged with intoxication and neglect of duty. Every effort has been made to induce the policeman to attend more strictly to his duty, but to no purpose.

New Jersey's Labor Federation.
ELIZABETH, N. J., Aug. 21.—The sixth annual meeting of the labor congress of the Federation of Trades of New Jersey was held here yesterday, and the following officers were elected: President, Samuel Holt of Paterson; vice presidents, C. E. Woodmont of Bridgeton and John Weber of Jersey City; secretary, David H. Green of Newark; assistant secretary, Robert Beuro of New Brunswick; treasurer, John Colvin of Paterson.

Fatal Carriage Accident.
NEW YORK, Aug. 21.—A fatal carriage accident occurred last night near the marble arch in Central park. Mrs. Nellie Schaffner, the daughter of Mrs. Ernestine Schaffner, the "Tomb's angel," was thrown from the carriage in which she was driving and so badly injured she died soon after. Mrs. Richard Graham, who was Miss Schaffner's companion in the carriage, was also severely injured.

Dr. Hand's Colic Cure in Hudson.
HUDSON, N. Y., Sept. 28, 1893.
I bought a bottle of Dr. Hand's Colic Cure and found it so good for my baby, who was suffering from colic so that I could not get a moment's rest night or day. I now take pleasure in writing this so that every mother can know about it, for I hope that Dr. Hand's medicines will find their way into every family in this land.—Mrs. Oscar Shook, 43 Chapel street, Dr. Hand's Colic Cure is sold by all drug gists for 25c.

The Puzzle Solved.
Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most nauseous and disgusting ills the flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the many modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising. No druggist is without it.

BRECKINRIDGE AT GEORGETOWN

The Kentucky Orator Receives a Cool Reception at Owens' Home

LEXINGTON, Ky., Aug. 21.—Colonel W. C. P. Breckinridge spoke yesterday at Georgetown, the county seat of Scott county, and the home of W. C. Owens, who is his most powerful opponent in his struggle for reelection. Special trains were run from all parts of the district. The Lexington special, from Breckinridge's home, took the majority of the crowd. The speaking took place in the court room, which held about 600 people. Colonel Breckinridge was introduced by John A. Lewis, of Georgetown. His address was an appeal for mercy, inasmuch as he had confessed his sins and laid himself at the feet of his people. He told how he loved the people of Scott county, but his reference to the late vice president, Richard M. Johnson, was so fresh in the minds of the people there that his reception was rather cold.

Professor J. F. Nelson, a teacher in the Kentucky state college at Lexington, was shot in the leg while trying to prevent a difficulty between a negro and a white man named Gines. Both Nelson and Gines are strong Breckinridge men, and Gines, in attempting to shoot the negro, in some way hit Nelson.

The big Owens barbecue will be held here at Breckinridge's home tomorrow. Ten beefs, 1,500 pounds of mutton, 1,000 gallons of burgoo and 5,000 loaves of bread have been prepared to feed the crowd. The women of the district interested in the defeat of Breckinridge will furnish a dinner for 2,500 persons.

Corean Minister Going Home.
WASHINGTON, Aug. 21.—The Corean minister, Mr. Ye Sung Soo, and the secretary of legation of Corea will sail from San Francisco on the 25th inst. for home. They have been given a leave of absence, and will return to this country after a few months. Ye Sung Soo was formerly secretary of the legation, and was promoted to minister a few months ago. While at home he will take the opportunity to fully inform his government with respect to American affairs, especially as bearing upon the present Japanese-Chinese war. The legation here during the minister's absence will be in charge of the counselor, Ye Huen Gik, ex charge d'affaires.

Still Against Senator Camden.
PARKERSBURG, W. Va., Aug. 21.—All political conventions in this part of the state are being made subordinate to the re-election or defeat of Senator Camden. The Roane county Democratic convention passed resolutions indorsing the Wilson bill, and denouncing as traitors the senators who defeated it. The Jackson county convention Saturday nominated men who will vote against Mr. Camden, and the Wayne and Cabell conventions are divided between ex-Governor Wilcox and Camden. It is said that Camden cannot be re-elected, and that to push his nomination this fall will result in the disintegration and total defeat of the entire Democratic ticket.

Brown's Tramps at Bridgeton.
BRIDGETON, N. J., Aug. 21.—Car. Brown, with the stragglers of Coxey's army, pitched their side show tent in this city on Saturday. The whole gang of fifty are a dirty, greasy looking set. The army of tramps are begging from citizens and selling photographs of Coxey, Brown and others. On Sunday while minister were dispensing the Gospel in the churches, Brown was delivering a rabid political speech in his tent in the park lot. The citizens are converting Mayor Appleton and the police for allowing Brown to make these speeches, and especially on Sunday.

Work Must Serve Out His Term.
HARRISBURG, Aug. 21.—George F. Work who was instrumental in the wrecking of the Bank of America, will have to serve out his term. Governor Pattison yesterday refused to approve the pardon. The governor could not see why mercy should be shown to Work. The recommendation for a pardon was signed by all the members of the pardon board with the exception of Secretary Harritt, who declined to sign the paper after examining the reasons. The commutation Work carried insures him against losing his citizenship.

Has Been Burning a Week.
VIENNA, Aug. 21.—The fire which broke out in the warehouse on the water front of Fiume on Aug. 13 has not yet been quenched, although 10,000 tons of water are thrown upon the burning mass hourly. There is no possibility of saving the goods in the great structure. The atmosphere is almost unbearable, and all those who can afford the expense are leaving town.

To Prevent the March of Cholera.
BERLIN, Aug. 21.—The cholera commission of Germany has decided that it is necessary to take additional precautionary measures along the Russian frontier to prevent the entry of persons from the cholera districts of Russia. It is reported from Scutari, Turkey, that a number of persons are down with a disease which is suspected to be cholera.

Testimony of a Nurse and Midwife.
PAVILION, N. Y., May 21, 1885.—"I have had great experience as a nurse and midwife for the last five or six years, and I have never found anything so good as Gilmore's Aromatic Wine; have found it excellent for young ladies arriving at maturity, and also for ladies in the decline or change of life. I recommend it to the afflicted."

Mrs. AMELIA FLUCKER.

Women say that a meal tastes better when prepared by some one else, and that is just the reason why Simmons Liver Regulator is in such favor. It is already prepared in liquid and powder form. You don't need to make a tea. Another reason for this favor is that Simmons Regulator is better than Pills for Biliousness, Sick Headache, Constipation and Indigestion. Sample package powder, 25 cents.

NO MORE LEGISLATION

This Session of Congress Practically at an End.

REPUBLICANS OPPOSING ORATORY.

They Say They Will Prevent Proposed Speeches by Democratic Senators with Reference to the Much Discussed Tariff Question—The Quorum Disappearing.

WASHINGTON, Aug. 21.—Mr. Harris, from the finance committee, yesterday reported back to the senate the free sugar bill amended so as to provide a duty of 40 per cent. flat on all sugars. The free coal bill was reported back amended so as to provide for reciprocal free coal. The iron ore bill was reported back without amendment. The barbed fencing wire bill was amended so as to make barbed wire free, the bill making free only the material from which it was made. The free raw material bills were sent to the calendar, where they can only be called up by a majority vote. The senate at 1:35 p. m. adjourned until Wednesday.

Yesterday's session of the house lasted less than an hour. A few unimportant bills were passed by unanimous consent. The house manager, have decided not to permit any more legislation, save by unanimous consent, and the regular program from now until the final adjournment will probably be the consideration only of such minor bills as encounter no objection.

The Republicans say there will be no more business of importance transacted in the senate this session, except perhaps the passage of the bill correcting the alcohol schedule. The Republican leaders say this session is over to all intents and purposes, and they include in this the making of speeches as well as the passage of bills. Yesterday, from the time the senate met until it went into executive session Senator Lindsay, of Kentucky, was ready to make a speech. The Kentucky senator desires to defend the action of the senate finance committee and the Democratic senators who supported them. It is also understood that Senator Allison, of Iowa, was ready to make a speech of some length on the present status of tariff legislation.

It is possible that both of these speeches will be made by the courtesy of the senate, although the Republicans said that no speeches would be made, and that the interdict against any more business included also speeches. Some of the Democrats assert, however, that if any attempt is made to prevent the speeches on the Democratic side that a quorum of these senators will be recalled under duress and by the sergeant-at-arms.

On the Republican side it is claimed that the tariff debate, as well as tariff legislation, is closed. This may lead to some ugly feeling if insisted upon. If Senator Lindsay should get the floor he could not be interrupted by points of no quorum, as he could not be taken off the floor without his consent, but whenever the attempt is made to call up the resolution upon which he is to speak the point can be made, and the present indications are that when the senate meets tomorrow there will not be a quorum present, as a number of senators intend leaving before tonight.

Senator Harris has given notice that immediately after the reading of the journal tomorrow he will move an executive session. This is the interest of Judge Porter, of Tennessee, whom he desires, to have confirmed. If there is objection in the executive session sufficient to cause the point of no quorum to be made, it will result in carrying the nomination over until after adjournment. There seems, though, to be a quasi-understanding that there shall be a confirmation or rejection without regard to the presence of a quorum upon the vote which may be cast.

An Ex-Police Captain Arrested.
NORFOLK, Va., Aug. 21.—Captain M. J. Vellines, who was recently removed by order of the police commissioners, said who has since continued wearing his uniform and reporting for duty daily, was yesterday afternoon arrested by order of the commissioners on the charge of impersonating an officer. Counsel for Captain Vellines immediately issued a writ of habeas corpus, and the court ordered his release, on the ground that the arrest was illegal, no warrant having been issued. The matter will probably come into court again in a day or two. Captain Vellines still continues to wear his uniform and it is thought will sue the commissioners for false imprisonment. There is much feeling here over the arrest.

Electric Bitters.
This remedy is becoming so well known and so popular as to need a special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the liver and kidneys, will remove Pimples, Boils, salt rheum and other affections caused by impure blood.—Will drive Malaria from the system and prevent as well as cure all Malarial fevers.—For cure of headache, Constipation, and Indigestion try Electric Bitters. Entire satisfaction guaranteed, or money refunded.—Price 50c. and \$1.00 per bottle at McMonagle & Rogers Drug store.

Bucklen's Arnica Salve.
THE BEST SALVE in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns and all Skin Eruptions, and positively cures piles or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents a box. For sale by McMonagle & Rogers.

YESTERDAY'S BASEBALL GAMES

The Race for the Pennant in the Reorganized Eastern League.

PROVIDENCE 62 2 52 Syracuse 46 13 459
Buffalo 60 44 377 Springfield 41 49 455
Erie 57 50 353 Scranton 44 52 446
Wilkes-Barre 45 44 376 Allentown 20 61 240

YESTERDAY'S EASTERN LEAGUE GAMES.

At Wilkes-Barre—Wilkes-Barre, 11; Scranton, 7. At Syracuse—Syracuse, 14; Allentown, 4. At Erie—Erie, 8; Providence, 4. At Buffalo—Buffalo, 14; Springfield, 2.

National League.

At Philadelphia—Philadelphia, 16; Cleveland, 1. At Baltimore—Pittsburg, 7; Baltimore, 5. At Washington—Washington, 8; Louisville, 7. At New York—New York, 11; Chicago, 3. At Brooklyn—Brooklyn, 20; St. Louis, 4.

Pennsylvania State League.

At Hazleton—Hazleton, 13; Philadelphia, 19. At Lancaster—Lancaster, 12; Reading, 3. At Pottsville—Pottsville, 11; Sacoanook, 9.

Arrested for Spreading Immorality.

LANCASTER, Pa., Aug. 21.—M. M. Denlinger, proprietor of the largest and most prominent boarding house in this city, and Charles C. Rickeron, a young man of good family, were arrested here yesterday on the charge of printing and circulating immoral literature through the mails. The arrests were made through Anthony Constock, who came here with evidence that immoral books and pamphlets had been sent to schools in various sections of the state. In the upper story of Denlinger's house was found a well equipped printing office, where the matter was printed. Constock took Rickeron to Philadelphia to answer the charge of illegally using the United States mails, while Denlinger was locked up here to answer the charge of printing matter prohibited by the state law. Two large sacks of immoral literature were found in Denlinger's office.

Coxey's New Army.
MASSILLON, O., Aug. 21.—J. S. Coxey announces that the proposed Labor Day Commonwealth demonstration in Washington has been abandoned, and the next attack on the Capitol will be made in December when congress reassembles. A prison stripe uniform has been adopted for the "army," and Browne is now wearing it. The referendum has been added to the basic principles of the movement, and the whole enterprise has been reorganized with a constitution and by-laws. The word "Christ" has been dropped from the title "out of defence to the feeling of misunderstanding."

Coming Executions in New Jersey.
TRENTON, N. J., Aug. 21.—Sheriff Ege, of Trenton, accompanied by his son and a master carpenter, visited Sheriff Barrett yesterday and inspected the county gallows for the purpose of erecting one of a similar design for Mercer county for use on the 6th prox., when Kocis will be hanged. On the same day a hanging will take place in Mercer county, and one in Burlington county, owing to which fact it is expected several requests will be made upon Camden for his death trap. At the late execution in Mercer county the Camden machine was borrowed.

Miss Pullman to Wed a Prince.
LONDON, Aug. 21.—The engagement is announced of Miss Florence Pullman, a daughter of George M. Pullman, to the Prince of Isenburg-Birstein, the eldest son of the Prince Charles of Isenburg-Birstein and the Arch Duchess Marie Louise of Austria, and a cousin of the emperor of Austria. Miss Pullman's father only consented to his daughter's engagement to the prince on condition that her children shall possess the full rights of succession to the title, dignities and hereditary privileges of the house of Isenburg-Birstein.

Five Sailors Lost.
OLYMPIA, Wash., Aug. 21.—A special from Ocoos says that on Saturday morning, while making a landing through the surf at Joe Creek, fifteen miles north of Gray's Harbor, a whaleboat and crew of nine men, in command of Lieutenant Freeman H. Crossby, U. S. N., of the United States coast survey steamer *McArthur*, was cap-sized, and five men are missing, namely: Lieutenant Freeman H. Crossby, John Freyer, Jens Gudmundsen, William Nehm, Alexander Smith.

Tennessee's Republican Convention.
NASHVILLE, Aug. 21.—The indications this morning are that the Republican state gubernatorial convention which assembles here this afternoon will be the largest that has assembled here for years. It is understood that there will be two candidates for the nomination for governor—J. W. Baker, of this city, and ex-Congressman H. C. Evans, of Chattanooga. It is generally believed that Baker will be easily nominated.

Just Delivery at Chambersburg.
CHAMBERSBURG, Pa., Aug. 21.—Seven prisoners who were confined in the jail here escaped Sunday night by sawing a hole in the floor, through which they got into the cellar, thence to the yard and over the wall. Two have been recaptured, but the others are thought to be out of reach.

Fatal Accident to a Lineman.
LANCASTER, Pa., Aug. 21.—While repairing an electric light wire last night Walter Mowery, aged 23 years, received a shock which threw him from the pole headlong to the ground, breaking his leg and shoulder and inflicting internal injuries. He will probably die.

The Discoverer Saved His Life.
Mr. G. Callouette, Druggist, Beaveraville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with LaGrippe and tried all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial bottle at McMonagle and Rogers' Drug Store.

Just Married.
How loving they are; this is always a sure sign. After the first year sometimes it don't hold good. When Charles comes home to you grumpy and cross, snapping and snarling, unable to relish the nice dinner you have cooked, and feels as if there was a ton of pig iron in his stomach, he is troubled with dyspepsia, and Sulphur Bitters is the only medicine that will cure him.

Just Married.

QUEER PHYSICAL PHENOMENON.

An English Lady Saw the Specter of a Friend in a Graveyard.

I was one morning a short while ago walking with a friend, Miss B., in our churchyard. As we emerged from the shadow of the trees, on the west end of the church I saw distinctly the figure of a man approach the south gate, which is the main entrance, pass through it and come up the path, which was only a little distance from us, toward the church. I said to Miss B., "That is Mr. Tate, whom you know we are expecting to visit us today."

At the same instant, so beautifully fine and calm was the morning, I heard the train by which the gentleman referred to was to have come leaving the next station. Miss B., who did not know Mr. Tate personally, at once looked across in the direction indicated and remarked that instead of going into the church, as I had thought was his intention, he passed directly on to the spot under the shade of the trees we had just left. Together Miss B. and I stood for a few moments by the grave we had come to see, then parted. I went to join the friend we had seen, but to my surprise found no trace of him. On reaching my home (a short distance) I also found that no one had seen him, and eventually it turned out that he had been detained by business and was not able to come for some time.

I have formed no theory on the subject, but can affirm positively that I saw him, or, as north country people say, his wraith, at the very time he was in the flesh at a distance of several miles. One thing I observed at the time—he never glanced in our direction; also that he carried under his arm the photographic camera he brought at a later date. I could describe minutely his dress and whole appearance. His expression was that of a person deeply absorbed in thought. Talking the affair over afterward, Mr. Tate has told me that at that particular time he was regretting the unavoidable delay of a much needed holiday in the country.—Newcastle (England) Chronicle.

THE HANDS OF A CLOCK.

Why They Are Fainted on Signs to Represent the Hour of 8:19.

I saw in a newspaper a statement that the hands of dummy or sign clocks generally indicate 19 minutes past 8 o'clock, because at that minute and hour Abraham Lincoln died. This is an error, for history tells us that the martyr-president died at 7:22 in the morning, a fact which can easily be ascertained.

Some time since the editor of The Literary Digest asked our opinion why these clocks were thus painted, and our answer was printed in that journal. It seems that dummy clocks or watches indicate 8 o'clock and 18 1/2 minutes because that is the position on the dial where time can be shown, the hands being on opposite sides and making a perfect angle, and also being equally distant by minute marks or degrees from the figures 12, taking these as a starting point. We admit, though, that the hands can be reversed, indicating 3 o'clock 41 1/2 minutes.

There is but one other place on the dial where the time would be correct and show the hands equally distant from the figures 12. That is at 13 1/2 minutes past 9 o'clock, or, with the hour and minute hands reversed, but this would not be so desirable, as the hands would be almost directly at right angles across the face of the dial. This can be easily tested by any one with his watch.

It must be remembered that while the minute hand makes the circuit of the dial of 60 minute degrees the hour hand moves but five minute degrees. Therefore the movement of the hour hand one minute degree necessitates the movement of the minute hand 12 minutes, or one-fifth of the whole.

We have in our possession an old dummy sign watch used by the late Mr. Samuel W. Benedict in the early part of the present century, manufactured long before the death of the lamented Lincoln, which indicates exactly 8:18 1/2 o'clock.—Letter in New York Sun.

Jews and Chess.

In speaking of the great number of successful chess players of the Jewish race, and of the contest between the two Jews, Lasker and Steinitz, for the championship of the world, The Jewish Chronicle dwells upon certain traits which are prominent in the Jewish character. It maintains that the Jews are the best chess players because of their possession of mental qualities which have always been useful to the race—such, for example, as quickness of apprehension, tenacity of purpose, readiness in the application of resources, the power of estimating probabilities and an intuition which enables them to seize the opportune moment for developing action. These traits of mind have been marked in all the Jews who have won fame and fortune in the playing of chess.

Unlearned, but Wise.

"I'm after justice rather than law," said John Dudley, who for 21 years, from 1770 to 1791, was one of the most popular judges of New Hampshire. He was unlearned in the law, and his education was so defective that he could not write five consecutive sentences in correct English. Yet so acceptably did he discharge his judicial duties that Chief Justice Parsons of Massachusetts, one of the most learned of lawyers, said of him, "We may smile at his law and ridicule his language, yet Dudley, take him all in all, was the greatest and best judge I ever knew in New Hampshire."—Youth's Companion.

The Race Problem.

The Ministerial One—The race question seems to be as much of a problem today as it was at the close of the war. The Party One—You're dead right, pard. I've been fulling the horses for 30 years, and I have just as much trouble picking the winner now as I had the first day I ever went to a track.—Brooklyn Eagle.

Send it Back
Peddlers and some unscrupulous grocers will tell you "this is as good as" or "the same as Pearlina." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back.

Song of the washboard.

Endless rubbing—tiresome, ruinous, back-breaking; wear and tear on things rubbed; wear and tear on temper and health; wear and tear on everything—even the washboard itself.

It's all done away with, if you use Pearlina. There isn't any washboard; there isn't any rubbing on it; there's no wear and tear, and there's very little work. It's the only sensible way of washing—easy, economical, and, above all things, absolutely safe.

"This is as good as" or "the same as Pearlina." IT'S FALSE—Pearline is never peddled, and if your grocer sends you something in place of Pearlina, be honest—send it back.

"America's Greatest Men and Women."

MR. WILSON TALKS.

MY Name is Wilson; I do an insurance business on LaSalle street, in Chicago Ill., and I live in Evanston, Ill. Evanston is what was originally a scattering population on a pretty point on Lake Michigan, esteemed years ago far from the city of Chicago, but now one of the varied towns which may go within it by vote of the population.

I am married and have a wife and one child. That child is a boy (I suppose I should feel the same solicitude if it was a girl), and I have a father's natural fancies as to what must be the best thing to give that child the right kind of intelligence, and so divert his course that he may succeed in life. I have studied a great deal upon the subject. My own experience would not be of great value, because I have succeeded only to the limit of the average man and am barely established; still, I own the horse and lot upon which I live, and am feeling perfectly safe in meeting the exigencies of the year. I want the boy to take a broader view than I did, to be a bigger man in the world. I have studied how to teach him to do that, and he has done pretty well, as far as the preliminaries go. Now, I have thought over what I should say to him and have sometimes been puzzled. I could not very well tell him what to do. I wanted to tell him what I needed, but what I did not learn myself when I was of his age, and what my father did not know how to tell me, or else was not thoughtful enough to do so. I wanted to tell him how to follow the example of those who have succeeded at the present time and under the circumstances which ordinarily affect a young man struggling in this Republic established on this comparatively new world to-day. I wanted to tell him just what he had better do to get along well, and to point out to him what had been done by the people who were successful at the present time.

Of course, the record of the people of any time past would not be of so much value, because circumstances must necessarily have been different when they were alive. I feel confident, though, that if I could learn, some way and somehow, what the people who are so successful to-day have done and how they did it, I could give to my boy such advice as would make his own life at least as far removed from failure as justified by the natural ability he may possess.

I looked around for some authority which I might consult in order to give him the facts most essential with this idea of mine in mind, but I could find no one. I discovered that a great publishing firm in Chicago had decided to bring out a book giving the photographs of all the people who are prominent in America to-day. Here was what I wanted. The book, as I have learned, is going to be published in 16 parts, 16 pages to each, with a recent photograph on each page of some active leading American man or woman of to-day, while underneath appears the story of that same person's life—the story telling what that person did, and how the ends attained were eventually accomplished. Here was what I wanted; here was what I needed in various ways; here was what I was certainly seeking in order to obtain the information with which to educate my boy and secure for him that knowledge which will give him a source of thought and make him prominent in the world.

I have the first sheets of this work. It is a graphic story of America's Greatest Men and Women, told in each instance on a single page underneath a photograph of recent date, which conveys to the eye an idea of what that person is. To me the photograph tells even more than the suggestive record beneath; and yet it is old how in each instance the correct story corresponds with the expression upon the face which is reproduced in the portrait above. I do not know how the series will end. I know very little about the new feature of the newspaper people; I know nothing about the publishers and their expectations, but I do know this: that if the series so begun and continued to its practical, ordinary good sense end—and I don't care whether that will include 200 or 700 of America's Greatest Men and Women, which is the title of the book—I do know this, that for the ordinary, active and alert business man—I will certainly say far more for the student or the literary man, or the politician or the statesman—for all these I will say it will be simply the most valuable and the most remarkable book produced in modern history. The wonder is that some one has not thought of it before. Yet no one seems to have done so since the days of Plutarch. Plutarch knew something. That shrewd old fellow knew that all who would get out of the drift, all who would accomplish great things, wanted to know every detail of the lives of those who had better luck or more courage or a broader brain than their fellows; but I am no authority on these points. I only know that there is produced a second Plutarch's Lives, that its biographies are shrewd, graphic and curt, and written without bias and without prejudice. I only know that there was a Plutarch—God bless the old fellow—and that there is this modern work.

This is the work I am going to give to my boy. I am going to make him read it thoroughly. The work is announced as consisting of 16 Parts, with 16 pages and 16 photographs in each part, and when bound, the whole series will make a great volume of 256 pages, the like of which has never been equaled. It is the story of the personal character of the men and women who are making the nation's history at this particular time. What a work this is! Do you imagine that I would miss it for my boy, or, incidentally, for myself?

HERE ARE the TERMS.

IN EVERY ISSUE OF THE ARGUS AND MERCURY will appear a numbered coupon. Cut this coupon out and bring or forward it, together with TEN CENTS, to the Coupon Department of the ARGUS and MERCURY and there will be delivered or mailed to you one number of the series as above. The remaining parts can be obtained as issued, one each week, by the readers of the ARGUS and MERCURY under the same conditions.

You Can Get This Work Only Through the Daily Argus and Mercury.

(PARTS 15 AND 16 NOW READY.)

A SUCCESSFUL RAINMAKER.

How Clayton B. Jewell Coaxes Moisture From Cloudless Skies.

Clayton B. Jewell of Kansas, who is figuring extensively in western Kansas and contiguous states as a successful coxer of rain from cloudless skies, operates under the auspices of the Chicago, Rock Island and Pacific Railroad company, using a special car constructed for him by that company. The Pittsburgh Dispatch tells the following interesting story of his work and methods:

Mr. Jewell said: "To produce rain it is necessary to work with the laws of nature and strive to bring about the same conditions that produce a natural storm. All rainstorms are caused by the meeting of warm and cold currents of air. When the cold air strikes the warm air, it naturally falls rapidly, being the heavier, thereby causing a vacuum into which the moisture in the atmosphere rushes, making clouds and becoming a cloud center. It was to produce this condition that my efforts were directed, and I believe that I have discovered a gas that will do the work."

"At any rate, every time that I have sent it into the air in sufficient quantities a rainfall has followed. To manufacture this gas I use metallic sodium, ammonia, black oxide of manganese, caustic potash and aluminium. In combining these materials dangerous explosions are apt to occur, and in my preliminary experiments I had some narrow escapes. With these I also use an alloy known as murium, which I have manufactured for my use, and which costs 15 cents per pound."

When rain is to be produced Mr. Jewell's car is run onto a side track. A hole 5 feet in diameter and about 8 feet deep is dug and connected with the car by a rubber hose, after which the top of the hole is covered by boards. Directly over the hole and on the top of the car is a tank filled with 500 gallons of water. Between the tank and the edge of the car is a space of about a foot in width through which three pipes project 30 inches apart. On top of the tank is square box 24 inches long and 12 inches wide.

Inside the laboratory part of the car a wide shelf about two feet from the floor extends from one end to the other. On this are many curious-looking bottles and boxes said to contain the chemicals from which the rain producing gases are made. Under the shelf are large boxes, securely locked, which the young rainmaker declared were never opened in the presence of any one. Above the shelf and near the top of the car is another shelf on which rests a 24 cell battery, besides an unusually large jar connected by wires with the battery. There are also wires connecting the battery with the rain machine proper, which consists of six large jars divided into groups of two each. In these jars the gas is made and released through the three pipes mentioned above, that project through the top of the car by the side of the water tank.

No force is necessary to send the gas into the sky, as at the time it is released it is much lighter than the air. In escaping it makes little or no noise and is almost invisible, being of a light blue tinge. At the other end of the car is a pipe running down from the plank above and connecting with a large wooden vessel, which in turn is connected with another wooden vessel of similar pattern. The remainder of the laboratory is filled with pipes, bottles and other apparatus ordinarily found in a small laboratory. In the rainmaking department of the Chicago, Rock Island and Pacific Railroad company there are three cars fitted up in the same manner, and they all operate at the same time a few miles apart. After showing the car Mr. Jewell proceeded:

"When the rainmaking machine is in operation, 1,500 feet of gas escapes from each of the three pipes projecting from the top of the car every hour. When it is liberated, it is warm and ascends steadily. In four hours it has reached an altitude of from 4,000 to 8,000 feet, depending upon the conditions, altitude of the point of operation, vegetation and humidity. After the lapse of a certain time it turns cold instantly and drops with a rush, creating a vacuum, into which the moisture contained in the air rushes, forming clouds, and they form the storm center."

"When I have done this, I have accomplished all that is necessary, for nature will do the rest. The size of the storm depends upon the velocity and direction of the wind, together with the temperature. I do not claim to be able to always produce rain at the point of operation, because the wind may carry it many miles away, but rain will surely fall in the direction the gases were carried. On a calm day rain should extend about 20 miles in each direction from the point of operation. A 10 mile wind will spread the rainfall 10 miles in one direction and about 50 miles in the direction it is blowing. In a 25 mile wind the area of the storm will be extended from 100 to 150 miles in one direction, and no rain falling to windward of the point of operation and but a sprinkle at that point."

"While splendid success has attended my efforts so far, I will only require proper machinery to make rainfall almost instantly. I have completed a design for apparatus which I hope to have for next season's work that will accomplish this result. With this I propose to send my gases up to the required height by compressed air in liquid form inclosed in a shell, which, when it bursts, will release the liquid, spreading it in all directions, instantly forming a large volume of cold gas that will do more than the gases now sent up from the car by the present method in a much shorter space of time."

"If this machine does what I feel certain it will do, rain can be made to fall in the shortest possible space of time. I made 33 successful experiments last year, and up to this time 19 experiments this year. At each of these rain was produced ranging from one-half to six inches, and each time contrary to the predictions made by the weather service."

THROW IT AWAY.

There's no longer any need of wearing flannel, heavy clothing, Trusses, which give only partial relief, and never cure, but on the contrary inflict great injury, inducing inflammation, strangulation and death.

HEERNA (Bresch), or matter of how long standing, or of what age, is promptly and permanently cured without the knife and without pain. Another

Triumph in Conservative Surgery is the cure of

TUMORS, Ovarian, Fibroid and other varieties, without the perils of cutting operations.

PILE TUMORS, however large, of the lower bowel, promptly cured without pain or resort to the knife.

STONE, is crushed, pulverized, and washed out, thus avoiding cutting.

STRICTURE also removed without cutting. Abundant testimonials on above diseases in pamphlets sent free on receipt of name and address to

W. C. HARRIS, M.D., 111 & 113 William St., New York.

LOCATIONS OF FIRE ALARM BOXES

For the information of our readers we publish below a complete list of the numbers and locations of all the fire alarm boxes in this city:

- 14—Wickham ave., Cor. Prince, O. & W. E. R.
- 15—North street and Low avenue, hat shops.
- 16—North street and Waver Ave., type shop.
- 17—Railroad Ave. and Montgomery.
- 18—Grand avenue and Prince street.
- 23—Wickham avenue, corner Liberty street.
- 24—West Main street, corner West street.

HUMPHREYS'

Nothing has ever been produced to equal or compare with Humphreys'

Witch Hazel Oil as a CURATIVE and

HEALING APPLICATION. It has been

used 40 years and always affords relief

and always gives satisfaction.

It Cures Piles or Hemorrhoids, External or Internal, Blind or Bleeding—Itching and

Burning; Cracks or Fissures and Fistulas. Relief immediate—cure certain.

It Cures Burns, Scalds and Ulceration and

Contraction from Burns. Relief instant.

It Cures Torn, Cut and Lacerated

Wounds and Bruises.

It Cures Boils, Hot Tumors, Ulcers, Old

Sores, Itching Eruptions, Scurvy or Scald

Head. It is Infallible.

It Cures Eczema or CAKED BREASTS

and Sore Nipples. It is invaluable.

It Cures Salt Rheum, Tetter, Scurfy

Eruptions, Chapped Hands, Fever Blisters,

Sore Lips or Nostrils, Corns and Bunions,

Sore and Chafed Feet, Stings of Insects.

Three Sizes, 25c.,

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its pleasant in the form most acceptable and pleasing to the taste, the refreshing and truly beneficial properties of a perfect laxative, effectually cleansing the system, dispelling colds, headaches and fevers, and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50 cent bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

New Bedford's Great Cotton Strike.

NEW BEDFORD, Mass., Aug. 21.—Yesterday the cotton operatives inaugurated their general strike and nearly 11,000 are idle. The machinery of but five of the twenty-seven mills in the city is in motion, and it is thought that these mills will soon be shut down with the others. The strike is against a proposed reduction.

Accidentally Killed His Brother.

ATLANTA, Aug. 21.—Robert Spinks accidentally killed his brother Charles in Talbot county. Robert was in his brother's room examining a pistol. The hammer slipped, the pistol was discharged and the ball struck Charles Spinks in the abdomen. He died in a few minutes. Both were prosperous young farmers.

No Prize Fighting in Sioux City.

SIoux CITY, Ia., Aug. 21.—"I will not permit this prize fight to occur within the corporate limits of Sioux City," said Mayor Fletcher, in speaking of the effort to get the Corbett-Jackson match here. "What is more, I doubt if it will be allowed to be fought on Iowa soil."

Senator McPherson Will Not Resign.

NEW YORK, Aug. 21.—Senator John R. McPherson, of New Jersey, said in an interview that the report that he contemplated resigning his seat in the United States senate was absolutely without foundation. The senator intends sailing for Europe tomorrow.

A Minister Strangled to Death.

READING, Pa., Aug. 21.—The Rev. Levi H. Geschwindt, a Lutheran minister, aged 45 years, of Tilden, this county, while eating was seized with paralysis of the heart, and the food getting into his windpipe he was strangled to death.

A Horse Causes a Fatal Wreck.

ST. LOUIS, Aug. 21.—About midnight freight train No. 97, on the Wabash railroad, struck a horse two miles west of Jonesboro, which resulted in the derauling of the locomotive and sixteen cars, and the killing of Engineer C. Welton, of Moberly, Mo., and three tramps named Birch Miller, William Andler and J. Thompson.

A Speedy Long Distance Cyclist.

NEW YORK, Aug. 21.—Stanwood finished the run from Chicago to New York, a distance of 1,200 miles, at 10:03 o'clock Sunday night. He made the run in eight days, eight hours and forty minutes. The best previous record was made by H. H. Wylie. It was ten days, four hours and thirty-nine minutes.

Four People Probably Drowned.

NEW YORK, Aug. 21.—The sloop rigged yacht Jessie G. H. was found floating keel up in the lower bay, and unless they were rescued by an outward bound vessel it is almost certain that four persons have lost their lives. It is known that there were three men and a woman in the boat.

Smallpox Spreading in Newark.

NEWARK, Aug. 21.—Smallpox is rapidly spreading here. Eight new cases are reported and the pest house is so overcrowded that it was found necessary to erect tents for the accommodation of patients.

A Girl Forger Sentenced.

NEW YORK, Aug. 21.—Lizzie Patterson, the 17-year-old forger, convicted before Recorder Smythe on Aug. 16, was sentenced to three years and six months in the Auburn state prison.

To Suppress the Kabyles.

LONDON, Aug. 21.—Great Britain has joined with Italy and Spain in sending warships to Morocco, where the troops of the sultan of Morocco are besieged by the Kabyles.

A Plague of Grasshoppers.

HONOLULU, N. H., Aug. 21.—Farmers of southern county are much alarmed over the appearance of grasshoppers in large numbers. Owing to the extreme dry weather their numbers are increasing rapidly, and in many places they are attacking all kinds of vegetation. Many fields of buckwheat at a distance of two rods around the water edge look much as if they had been used for a race course, the grasshoppers being eaten off close to the ground. Farmers in many places have been unable to eat their crops because of the voracity of the insects. The pests seem to be migrating eastward.

Jones and McKee Captivated.

BATTLESVILLE, Aug. 21.—Christie McKee, Battisville, and John McKee, who were in charge of the Commonweal when the camp at Hyattsville was raided by the Baltimore police, were yesterday released from the house of correction, where they had been committed for three months. They had intended to fight Governor Brown in the courts, but accepted an unconditional pardon and left for Hyattsville to wind up Coxey's affairs there.

Will be Returned to Germany.

NEW YORK, Aug. 21.—Frederick Nagle, the ex-mayor of Leopoldshafen, duchy of Baden, who fled to this country two weeks ago, will be returned to Germany on the Havell. He is wanted to answer a charge of forgery, the amount of which is \$30,000.

President Cleveland's Health.

BUZZARD'S BAY, Mass., Aug. 21.—President Cleveland's health continues to improve, and rumors that his ailment is more serious than material fever is discounted by Dr. O'Reilly. The president declines to say anything about administration matters.

The Race for the Cape May Cup.

LONDON, Aug. 21.—The Times says that the Sanitara will defend the Cape May cup against the Vigilant. The race for the cup will take place on Sept. 9. Until that time the Vigilant will not engage in any race.

HOW TO KEEP COOL.

If You Carefully Act Upon the Advice Given Below You Will Be Pleased With the Results.

"Keep cool!" Excellent advice in summer time, but not very easy to follow. Apparently, it would be just as reasonable to say "keep strong, healthy and vigorous amid the sweltering heat of this trying season." And yet this is not only possible, but it is something that every person can do if the right means are adopted.

Keep cool! When you feel tired out on a hot day, have no appetite and feel scarcely able to work, don't rush off for a drink to "brace up" on or swallow some other injurious stimulant. Follow common-sense principles. You are laudible and lack energy because your system is in a low condition. You are hot because your body does not throw off the extra warmth that is generated. You are weak because you do not get sufficient nourishment. There is not only one way to overcome these unhealthy conditions and that is by supplying what the system needs, by restoring healthy action. The best way to do this is to take the newly discovered pre-digested food at least once daily. This food which is known as Paskola is not a drug or a concoction, but a pure starchy food, in liquid form, delicious to the taste and exceedingly refreshing. Being pre-digested it is absorbed by the system the instant it is swallowed. Paskola gives tone to the system, it prevents dyspepsia, it perfects the digestion. It imparts strength and vigor to those who are weak and debilitated. As a health giver it is unsurpassed.

Keep cool! Loss of health means loss of a great many other things also. It pays to be well. If you feel cool, strong well, vigorous, and ambitious in spite of summer heat, try Paskola. You will like it; everybody does who have ever taken it. You are sure to recommend it after taking it as others have done. Paskola is popular because it has merit.

A pamphlet giving full particulars about Paskola will be sent on application to the Pre-digested Food Co., 39 Reade St., New York.

STOCK AND PRODUCE MARKETS.

Closing Quotations of the New York and Philadelphia Exchanges.

NEW YORK, Aug. 21.—Business was well distributed today, indicating a broadening market. Closing bids:

The following stores will close at 10 a. m., or before if possible:

Ira M. Corwin, O. N. Predmore & Son, Gillen & Van Fleet, J. E. Corwin, Ritter & Beyer, J. B. Leemon & Son, Co-operative store, F. Ostendorf, M. O. Decker.

THE MIDDLETOWN RACES.

Successful Opening of the Fair and Driving Park Association's Fall Meeting—Good Day, Good Track and a Good Attendance—The Contests.

The fall meeting of the Middletown Fair and Driving Park Association opened to-day, at the Campbell track, under the most favorable circumstances. The track, which was plowed up over a week ago, has been barrowed, rolled and sprinkled, until its condition is pronounced by the many horsemen present to be the finest track they have struck this season.

The crowd began to arrive at 1 o'clock, and by 2 o'clock the grand stand, paddock and betting ring were well filled. The usual number of carriages lined the fences.

The following gentlemen were selected as judges: Hon. L. J. Martin, of Newton, N. J.; W. Gibbs, of Goshen, and A. H. Pickens, of Newburgh.

The starting was in charge of Mr. George Hayt, of Elmira.

THE FIRST RACE.

The first race was called at 2 o'clock. Grace Hastings was a strong favorite in the pools, selling at \$35 to \$15 for the field.

In the first heat, Quarter March led at the half with Grace Hastings a close second and the others a dozen lengths behind. Quarter March led until the stretch was reached, when Grace Hastings passed him in the fastest possible manner, winning the heat in 2:31½.

The time was hung out as 2:31½, but many people on the stand made the time 2:25. It was then found that the watch which was used by the timers was running fast and a change was made in the time piece.

SECOND HEAT.

Chester, who was distanced in the first heat, was allowed to start in the second heat, having lost a boot in the first heat. Grace Hastings sold \$10 to \$5 against the field. Grace and Quarter March were close together at the half and a dozen lengths ahead of field. The horse lost a length at three-quarter pole by a break, but quickly recovered. Grace was first by a length in front of Quarter March, Detective third.

3:00 CLASS—PURSE \$200
Grace Hastings, c. m. (Boyle) 1 1
Quarter March, b. h. (Decker) 2 2
Lattie Mac, b. g. (Harlem Valley Stock Farm) 3 4
Detective (Brinkerhoff) 4 3
Oran, b. m. (Decker) 5 6
Blue Jacket, b. g. (Dunlop) 6 7
Lizzie H. b. m. (Honest) 7 6
Chester, b. g. (Evans) 8 dist
Time—2:31½; 2:31½.

THE SECOND RACE.

The second race, the 2:30 class, had six starters. Harry G. was a strong favorite against the field.

Joe S. had the pole on the start, Ida B. next. Joe S. broke after the word. Ida B. led at the quarter by two lengths, and at the half by three lengths, Crownmount second, Nora L. third. The latter took second place at the three-quarter pole. Harry G., the favorite, third. The horses finished in the following order: Ida B., Harry G., Nora L., Crownmount. Grant, Joe S. Time 2:35½.

2:30 CLASS, TROTTING—\$100.
Ida B. b. m. (Decker) 1
Harry G. b. g. (Robinson) 2
Nora L. b. m. (Lemon) 3
Crownmount b. g. (Flannery) 4
Victor E. b. g. (Decker) 5
Joe S. b. g. (McKeever) 6
Time—2:45.

A NOTABLE RACE MEETING.

An Unprecedentedly Large List of Entries for the Goshen Races.

The four days beginning Aug. 28th and ending the 31st will be memorable in the annals of the turf of Orange county. The Orange County Driving Park Association, of Goshen, whose annual meeting occurs on the days above mentioned, has 136 entries for the purse races and fifty-eight for the colt stakes, thus making the largest field of horses ever entered for a trotting meeting in this, and we could almost say, in any other county in this State. Ample facilities for transportation with cheap excursion rates will be furnished by the railroads, so that those of our citizens who wish to attend and avail themselves of this opportunity to witness the splendid fields of horses compete over Goshen's magnificent track for the large purses offered will be able to do so under the most favorable circumstances. A special train will leave Goshen for Newburgh after the races are over each day, via Turners and the Short Cut, stopping at all stations.

A Sneak Thief Committed to Jail

The negro, who robbed the house of Ed. McLaughlin in Washingtonville, and whom Mrs. McLaughlin chased on her bicycle and compelled to return the stolen property, was arrested in Newburgh, Sunday, and after being identified by Mrs. McLaughlin, was committed to the Newburgh jail to await the action of the Grand Jury.

Honest.

In these days of adulteration and fraud, in all branches of business and pursuits, it is pleasing to know that there is one medicine prepared which is strictly pure. Such a medicine is Sulphur Bitters in curing scrofula; you can depend on them every time. W. B. Everts, A. M., Charleston S. C.

The doctors have to take a back seat.—Mrs. Lewis Goda, Cheshire, Conn., writes: "My son fell from a tree and sprained his neck. Several doctors attended him, but he continued to grow worse, in fact we thought he would die. Salvation Oil was recommended, we tried it and with two bottles his neck was well."

OBITUARY.

Mrs. Joseph K. McVoy.

Mrs. Amanda H., wife of Joseph K. McVoy, died at 6:30 o'clock, yesterday morning, at her home at Walden, aged forty-five years and four months. The cause of death was a spinal affection, from which she had suffered for some time.

Mrs. McVoy was a daughter of Lewis and the late Charity Corwin Reed, of Slate Hill. After her marriage to Mr. McVoy, she resided for a few years in this city, her husband holding a place on the police force. They then removed to Brooklyn, where they lived until a short time ago when they moved to Walden.

Mrs. McVoy is survived by her husband and by two sons, Elmer and William. She is also survived by her father, a brother, Samuel Reed, of New York, and four sisters: Charity, wife of Henry Hyatt, of this city; Annie, also of this city; Clarissa, wife of John McBeth, of Brooklyn, and Mary, wife of Lewis Hyatt, of Brooklyn.

The funeral will be held, Wednesday, at 10 a. m., at her late residence, Walden. Interment in Hilleide Cemetery.

D. Howell Irwin

The remains of D. Howell Irwin, who died in Philadelphia, Sunday, of consumption, were brought to this city on the Susquehanna and Western, last night, and taken to the residence of Mr. S. M. Boyd, No. 49 East avenue, where funeral services were held, this afternoon. Rev. David Evans officiating. Members of Excelsior Hook and Ladder Company, of which the deceased was an honorary member, acted as bearers.

Mr. Irwin was a son of the late Dorastus B. Irwin and was born in this city in 1851. His early life was spent in this city and he lived here until about fifteen years ago, going to Chicago. In 1871 he married Ella Knight, of Franklin, Pa., who survives him, with four children; Lillian, wife of C. J. Berlin; Georgia, Maude and Walter, all living in Philadelphia.

BURIAL OF MRS. LINDSAY

Husband and Daughter Home from Europe and Are Permitted to Take a Last Look at Her Face.

Mr. William Lindsay and daughter, Mary, arrived in New York on the steamer Berlin, yesterday, and came to this city on the Orange County Express, last evening.

It will be remembered that Mrs. Lindsay, the wife of Mr. Lindsay and mother of Miss Lindsay, died on August 9th, and her body has been kept to give Mr. and Miss Lindsay an opportunity to take a last look at it before burial.

Thanks to the modern science of embalming, the body was so well preserved that husband and daughter had the satisfaction of looking upon her face nearly two weeks after death, when it was almost as natural as in life.

The burial took place at 4 o'clock this afternoon, in Hilleide Cemetery, only the members of the family being present.

OPENING DAY AT MIDWAY PARK.

The Programme Arranged—Military Street Parade—Orator by George H. Decker, Esq.

The programme for the opening day at Midway Park, Saturday next, as arranged by Capt. Jackson Post, G. A. R., provides for a grand street parade immediately after the arrival of Capt. Rockwell's company from Scranton, at 10:30 o'clock. The 24th Separate Company, Gen. Lyon Post, DeWitt Camp and Custer Camp, S. of V., and Captain Jackson Post will participate in the parade.

At the conclusion of the parade, Capt. Jackson Post and its invited guests, Gen. Lyon Post and the Sons of Veterans, will go the park, and will be joined there later by the Scranton company, which will march to the armory to leave its arms and equipments.

At the exercises at the park, Hon. M. D. Stivers will preside. The oration will be delivered by George H. Decker, Esq. There will also be brief addresses by prominent citizens of Scranton, who will accompany the militiamen as guests of Capt. Rockwell.

Dancing will begin at 1 o'clock and continue during the afternoon and evening.

TRAMPS IN A FREIGHT CAR.

One Gets Thirty Days in Goshen Jail, and His Companion, Who Talked Too Much, Goes to Albany for Six Months.

Two men, who gave their names as Charles Brown and John Schmidt, were arrested by the O. and W.'s special officer, Grant Wilson, for stealing a ride in a box car, loaded with merchandise. The car was sealed when it left Weehawken, and just where the men boarded the train is not known. Their presence was discovered by a brakeman, who looked them in, and they were released when the train arrived at Wickham avenue.

The Recorder sentenced them to thirty days in Goshen jail. Schmidt, who was inclined to be impudent all through the hearing, became more abusive on his way back to the lockup. Officer Durham, who had him in charge, took him back to the Recorder, and his sentence was changed to six months' imprisonment at hard labor in Albany Penitentiary.

INCIDENTS AND HAPPENINGS IN GOSHEN.

Elliott H. and L. Co., Going to Warwick.
—A Great Day for Drunks—Performing Monkeys—Coming Entertainments.

From our regular correspondent.
—The Elliott H. and L. Co. has accepted the invitation of Good Will H. and L. Co., of Warwick, to be their guests at the fire parade in that village, Sept. 27th.

—The following drunks were before the Police Justice, yesterday: Dan. McLoughlin, of Durlandville, fined \$5, paid; Wm. Ireland, of Warwick, \$3, paid; Thos. Noonan, of Port Jervis, was discharged, got drunk again and was re-arrested.

—Three performing monkeys in M. Jonas & Son's window are a first class advertising attraction for that enterprising firm.

—The Rock Band Concert Co. is booked for Music Hall, Monday, Sept. 3.

—Don't forget the colored people's concert at Music Hall, to-morrow evening.

FURTHER TEST OF THE HOGAN BOILER.

Pocohontas Coal to Be Used in the Expectation of Beating All Records.

A carload of Pocohontas coal, the first ever received in Middletown, arrived in town, last night, over the Susquehanna and Western, consigned to the Hogan Boiler Company.

Pocohontas coal, which is mined in Virginia, near Norfolk, is almost pure carbon, and is the highest grade of coal produced in this country. It is used in all tests of boilers when it is desired to obtain the highest record of efficiency, and is the fuel used on war ships in their official trials for the government speed premiums.

The Hogan Boiler Company will use the coal received, last night, in a further test of the new boiler at the State Hospital. The Pocohontas Coal Company is so anxious to make a new record for its coal and has such faith in the capacity and efficiency of the Hogan Boiler that it will send its most expert fireman to take charge of the fires while the test is in progress.

TESTING ELECTRIC LIGHTS.

The Aldermen Witness an Expert's Test of Arc Lamp.

About a year ago, when complaints had been made that the arc lamps were not up to the required candle power, Mr. J. V. Z. Anthony, Manager of the Electric Light Works, offered to pay the expense of a test by an expert, but the Common Council never called an expert to make the test.

Last evening, however, Prof. Chas. B. Goddard, of Boston, came to this city, at the request of Mr. Anthony, and in the presence of Aldermen Dorrance, Greene, Bowler, Luddington, Funnell and Mance made a test that seemed to satisfy the Aldermen that the lamps are giving the required light.

Mr. M. J. Wightman, the Traction Company's electrician, was also present and after the conclusion of the test he and Prof. Goddard renewed an old acquaintance formed when they were students in the same electrical school in Massachusetts, several years ago.

The lamp used for the test was taken from the corner of Franklin and Union streets, where it has hung for the past nine months without repairs. The testing instrument was the standard arc meter of the General Electric Company.

The instrument showed that the lamp not only gave the required current, but one-fifth of an ampere more than is required for the nominal 1200 candle power lamp.

To Cleanse the System

Effectually yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, to dispel headaches, colds or fevers use Syrup of Figs.

AN "ARGUS" MAN OFF DUTY
AIMS AT SEVERAL SUBJECTS.Rewards and Punishments of Woman
Suffragists—Horse Racing by Electric
Light—A Pronouncement of Autumn.

The woman suffragists, who long ago adopted yellow as the color of their campaign, saw to it, on the day after the vote was taken, that every delegate who voted in favor of equal suffrage, had a beautiful yellow rose in his buttonhole. Of the delegates from this district Col. Dickey, Gen. Hedges and Mr. Arnold wore roses. Mr. Hirschberg and Mr. Wiggins did not. The women who engineered the suffrage movement say that they can forgive some of the delegates who voted against their scheme, but there are some against whose names there are big black marks which mean that for them there is neither pardon nor forgiveness nor will time bring forgetfulness of the blow they dealt the woman's cause. High up on this list appears the name of Mr. Wiggins, who, as a member of the Suffrage Committee, was deaf alike to argument and entreaty. Mr. Hirschberg keeps him company because of a speech which he made ridiculing and denouncing Woman Suffrage. The woman suffragists say that although the ballot is denied them, they can vote by proxy and if any of those who made themselves conspicuous by their opposition to equal suffrage ever again aspire to public office, let them beware.

The experiment of racing by electric light is to be tried on the new track of the Newtown Jockey Club at Maspeth, L. I., which will be opened in about two weeks. The track has been fitted with 880 incandescent and 22 arc lamps and the illumination is bright enough to make all parts of it so light that the horses can easily be distinguished. It is proposed to have ten races a day, five in the afternoon and five in the evening. Racing by electric light was first tried in St. Louis and became popular with a certain class of that city's population. Of course it was the merest burlesque of sport, but it enabled those bitten with the betting craze to risk their money and was a source of no small profit to its managers. The owners of the Maspeth track expect to draw at night crowds of clerks and other young men, who are employed during the day and its demoralizing influence will be so certain and far reaching that the guardians of the public welfare would be justified in straining the law to the very last point in an effort to suppress this device for ruining young men.

The touch of frostiness in the air, to day, is the first pronouncement of the near approach of autumn, and unless there is a marked change in atmospheric conditions, the temperature in many localities hereabouts will drop to dangerously near the frost line before morning. No matter whether frost forms or not, this cold wave will cost the boarding districts of Sullivan county a great many thousand dollars, for it will send the summer guests flocking back to the city in crowds. Cool weather in the country is the one thing that city people think they cannot stand and they never learn by experience that a cold day or two does not mean that summer's heats are over, but as soon as there is a touch of frost in the air, pack up their belongings and hasten back to the dusty, sultry, suffocating city.

LOYAL TEMPERANCE LEGION.

The Class of '14 to Attend the State Convention.

The graduating class of '14, of the Loyal Temperance Legion, accompanied by the Supt., Mrs. J. E. Chambers, will leave on the Erie, at 11:03, to-night, to attend the State Convention, to be held at Cortland, N. Y., Aug. 22nd and 23rd.

The class comprises the following members, who will receive their diplomas from the State Superintendent, Mrs. Helen G. Rice: Mr. Otis Fuller, Vice-President of class; Miss Addie Smith, Secretary; Mr. Thomas Wells, Treasurer; Miss Mamie Van Van Dyke, Miss May Arkila, Mr. Howard Brooks, Mr. William Sinsbaugh.

THE GREAT FOREPAUGH SHOWS.

Well Managed and Gilt Edged in Every Respect.

In the Adam Forepaugh shows there is not a seat in the vast auditorium that does not command an unobstructed view of every detail. Everything is of the highest class, while the establishment is a gilt-edged affair throughout. Compulsory neatness and politeness upon the part of the employees, the actual reserving of seats by coupon tickets, make these shows a revolution in the matter of comfort and entertainment in tented exhibitions. They will exhibit here on Tuesday, Sept. 1st.

"Rheumatism Cured in a Day,"

"Mythic Cure" for Rheumatism and Neuralgia radically cures in one or three days. Its action upon the system is remarkable and mysterious. It removes at once the cause, and the disease immediately disappears. The first dose greatly benefits. Seventy-five cents. Sold by J. J. Mills, druggist, Middletown.

SENT TO THE REFORMATORY.

Annie Warner, Colored, Punished for Using Indecent Language at Midway Park.

The authorities at Midway Park have determined to maintain order and decency at that resort, and as a result of this determination Annie Warner, colored, aged eighteen, was committed this morning, to the House of Refuge for Women at Hudson, by Justice Powelson, for using abusive, indecent and insulting language to a young lady, while waiting for a car at the park, Sunday afternoon.

Annie, with a party of young colored people had been having a noisy time in the park during the afternoon, and for some reason began to abuse the young lady above mentioned. The latter was prevailed upon to make a complaint, with the above result.

The charge upon which the conviction was made was for violating the provisions of section 675 of the penal code, which makes the use of indecent language upon any railroad, or street car, or in a public place, to the annoyance of the passengers or the public, a misdemeanor.

Annie has been arrested twice before upon the same charge and escaped each time with a fine of five dollars.

Numerous complaints have been lodged against her for some time past for being a disorderly person, but the evidence was insufficient to warrant an arrest. She was taken to Goshen jail on train 35, by Deputy Sheriff Gould, who made the arrest, and the officials of the institution at Hudson were notified to come for her.

The Traction Company and Mr. Jacob Gunther are determined to make Midway Park a resort for women and children and rowdiness of any sort will be promptly checked and the offenders severely punished.

JOHN LOTT IS DEAD.

Warwick's Centenarian's Career is Ended.

Warwick's centenarian, John H. Lott, died Thursday night.

He was born Sept. 11, 1733, on the Gen. Hathorn farm near Warwick, and was given the name of the old hero of the battle of Minisink.

Lott was a man of fine physique, over six feet tall, broad shouldered and weighed 235 pounds. He was noted as an athlete and a tireless worker, and often boasted that he could do as much work as any two men.

Lott claimed to have killed the last bear seen in the Warwick Mountains. He dispatched it with a hunting knife, after a hard hand fight. In his youth he learned the cooper's trade and was an expert mechanic. Small cedar tubs made by him after he had passed his 100th birthday, are highly prized as souvenirs.

Lott had a wonderful memory and last fall, at the county fair, entertained the oldest inhabitants with his personal reminiscences of their fathers. Last March he walked three miles to vote at town meeting. He was a Democrat and boasted that he had voted the straight ticket for eighty consecutive years. He was twice married and was the father of nineteen children.

AMITY.

Personal Notes—Sunday School Picnic

—C. E. Meetings—The Band's Social Correspondence Argus and Mercury.

—Mr. Geo. Mulpaugh, of Goshen, spent a few days in this place, last week, visiting relatives.

—The Amity Sunday School will hold its annual picnic at Lake Glenmere, Thursday.

—Rev. Ezra T. Sanford and family, of Cornwall, are visiting friends and relatives in this neighborhood.

—Miss Grace Timlow is the guest of Mrs. Wm. J. Sly.

—The Y. P. S. C. E. now meets Saturday evenings at 7:20, instead of Sunday evenings.

—Miss Almada Sly is spending a few weeks with relatives at Delaware Water Gap.

—The social given by the Amity Cornet Band, last Thursday evening, at the residence of Hon. J. E. Waterbury, was a very pleasant event. About 770 persons were in attendance.

—Mr. J. W. Simpson has rented a house in Goshen and with his family intends to make that village his future home. He will continue his business at Fine Island.

—Mr. and Mrs. Hower R. Miller, who have been visiting relatives in Vermont, returned to this place, last week, where they will remain a few days before departing to their home in South Dakota.

Real Estate Sales.

—A. V. Boak, real estate agent, has sold for Miss Florence A. Alward, of Chicago, her plot of land of four acres, located near Monahan Lake, to Mr. Jesse W. Canfield, of this city.

Glad Tidings.

The grand specific for the prevailing malady of the age, Dyspepsia, Liver Complaint, Rheumatism, Constipation, General Debility, etc., is Bacon's Celery King for the nerves. This great herbal tonic stimulates the digestive organs, regulates the liver and restores the system to vigorous health and exorcises. Samples free. Large packages 50c and 25c. Sold only by John J. Chambers, 21 West Main Street opp. Runyon's Grocery.

BABY'S SECOND SUMMER

Most Anxious Time for Mothers and Nurses.

GREATER SUSCEPTIBILITY TO SUD-
DEN INTESTINAL DISORDERS.Worse Than the First Few Months of
Its Life—Lactated Food.

The dangers of the "second summer" have always been a familiar piece of nursery wisdom.

Every year, with a regularity that strikes terror into thousands of homes, there comes with the mid-summer weather the present fearful jump in the death rate among children. As physicians continually warn parents, extraordinary care in baby's food is now essential.

An intimate knowledge of just what babies require to keep well and free from summer illness, produced lactated food. Children fed on this thoughtfully considered nutriment grow rapidly and develop bone and muscle, as well as into fat, plump babies. It contains every necessity for baby's rapid growth.

A food as simple in its composition, as rich in nutritive parts, and as closely resembling healthy mother's milk has never before been produced. Lactated food is also the proper thing for children when weaned, because they like it, and are thus easily led to this important change in diet.

In thousands of cases, where nursing protracted into warm weather has reduced the vitality and richness of the breast milk, babies that showed signs of fretfulness and often colic become again fat and sturdy when put on a diet of lactated food. It is undoubtedly true that babies that have the advantage of their mother's milk seem to stand the heat of summer best, providing the natural food agrees with them. But when hot weather brings down the strength of both mother and child there is always danger of the severe bowel affections which come on so suddenly and are so often fatal.

Physicians prescribe lactated food to be kept always on hand and used at once upon the first indication of looseness or loss of strength, or if baby is evidently not thriving on its present diet. Lactated food is the diet physicians use in their own families.

ORANGE COUNTY JURY LIST.
